

Career Counselling – Making career decisions

Activity – Exploring My Career Interests

In order to fully explore all the opportunities available to you it is worthwhile considering ALL of your interests. Although you may have decided on an occupation to follow, your career may lead you in multiple directions over time.

For example, you may be interested in Accounting as your main occupation, but you have a real love for sport. Have you explored this love for sport? Could you consider a future career within the sporting industry, or perhaps you may want to work as an accountant within a sporting organisation.

Either way, it is worthwhile considering now, in the chance that an opportunity presents itself.

My main career interest

e.g. Accounting

Other interests

1.	e.g. Sports
2.	e.g. Music
3.	e.g. Movies

Combining my interests

e.g. I may consider becoming an accountant in a major sporting organisation. I may even consider running my own accountancy firm that specialises in music groups and bands.
